

Cade J. Kanoniakapueo Kane

Honolulu, Hawai‘i | cadekane@hawaii.edu | linkedin.com/in/cade-kane-67192a265/ | github.com/cadekane

Education

University of Hawai‘i at Mānoa, PhD. in Computer Science	Aug 2025 – Present
University of Hawai‘i at Mānoa, BS in Computer Science, Minor in Biology	Aug 2021 – May 2025

Research Experience

Maximizing Access to Research Careers (MARC) Scholar, UH Mānoa	Sept 2022 – May 2025
--	----------------------

- Conducted mentored research on applications of AI Language Models for the Hawaiian language.
- Conducted mentored bioinformatics research on colorectal cancer at the John A. Burns School of Medicine.

Publications

Global PIQA MRL Shared Task Dataset	Oct 2025
-------------------------------------	----------

- Created a Hawaiian-language PIQA-style benchmark dataset for evaluating large language models.
- Our dataset received the MRL 2025 Best Shared Task Contribution Award.
- Paper available on arXiv and submitted to the NeurIPS 2026 Datasets and Benchmarks Track.

arXiv:2510.24081

Projects

Hawaiian Language Natural Language Processing Translation Benchmark	2025 – Present
---	----------------

- Developing a parallel Hawaiian-English benchmark corpus for machine-translation.

Identifying Biomarkers of Colorectal Cancer in Native Hawaiians through Bioinformatics Analysis	2024
---	------

- Conducted bioinformatics analysis of colorectal cancer biomarkers using Native Hawaiian and TCGA-COAD genomic datasets.
- Identified statistically significant tumor mutational burden differences between Native Hawaiian CRC samples and TCGA racial cohorts.
- Discovered population-specific putative driver genes (TSC1, FGFR1OP, ZMYM2) associated with Native Hawaiian colorectal cancer.
- Investigated colorectal cancer disparities in Hawai‘i to support precision medicine and improve outcomes for Native Hawaiian communities.

Customization of AI-Based Breast Cancer Models For Validation in AANHPI Women	2024
---	------

- Compared the performance of various AI models and radiomic features for the prediction of breast cancer risk in a multi-ethnic cohort of AANHPI women.

Professional Experience

Kekaulike Program Intern, Ke Kula Kaiapuni ‘o Ānuenue	Oct 2025 – May 2026
---	---------------------

- Aids in the teaching of elementary school students grades 1-4 fully in Hawaiian language.

Skills

‘Ōlelo Hawai‘i / Hawaiian language: Conversationally proficient in the Hawaiian language.
